List of Digitally Verifiable COVID-19 Vaccination Certificates Currently Recognised by Singapore

Travellers who were fully vaccinated in Singapore have their records stored in the National Immunisation Registry and can show their vaccination status on their TraceTogether or HealthHub apps if needed. They can also generate a vaccination acceptance letter via the Vaccination Check Portal or use their hardcopy Singapore Vaccination Card if they cannot access their vaccination status from TraceTogether or HealthHub.

Travellers vaccinated outside Singapore whose Digitally Verifiable COVID-19 Vaccination Certificates are listed below can use the Vaccination Check Portal to verify their vaccination status. **Travellers who are unable to generate a vaccination acceptance letter via the Vaccination Check Portal, or whose vaccination certificates are not listed below can present their vaccination apps or original vaccination certificates instead if required on boarding or at immigration.** More Digitally Verifiable COVID-19 Vaccination Certificates will be added to this list in future.
